Larsen Ranch

Annual **BULL SALE**
MARCH 24, 2025

1 PM | AT THE RANCH | FORSYTH, MONTANA

www.LarsenRanch.com

Beef Producers,

WELCOME TO OUR 51ST ANNUAL SALE!

Thank you for your interest in our breeding program. We are very proud of the fact that our family has been raising Registered Angus since 1949 and continue to strive to put together a package of sound, balanced traits in our bulls that will also leave you with a top set of replacement females. As you will see in the catalog there is a very strong set of ½ brothers by top A.I. Sires and some of our top end herd sires.

The bulls this year are in two different contemporary groups. The letter in their respective tattoo differentiates the two groups. An "A" in front of the number is a contemporary group, and an "A" at the end of the number is the other contemporary group. The two groups were raised in different pastures and fed in different lots. All of our 2025 offering will have a complete breeding exam and semen test evaluation along with a foot-rot vaccine and booster. All EPD's are enhanced through Angus GS testing. Please see our website for any additional information prior to the sale. www.larsenranch.com.

Thank You to the Forsyth FFA for helping "set up" and "take down" for the sale. A scholarship is well worth the extra help!

We appreciate your past business and look forward to providing quality Angus genetics to help make your operations profitable. We also realize that the end of March is calving time for some and are grateful for the time given to attend the sale. If you are unable to attend the sale, please contact us and we will accommodate you in whatever capacity needed to help you bid on the bulls you may be interested in. Frontier Live will broadcast the sale online with a bidding option. If you are interested in that option, please register early to avoid any last minute problems. Everyone is welcome to come early, or stop by prior to sale day to look over the bulls. You are also invited to lunch before the sale starting at 11:30 am, Monday March 24, 2025.

See you at the Sale!

The Larsen Family

Larsen Ranch

Annual BULL SALE

MARCH 24, 2025

AT THE RANCH | FORSYTH, MONTANA
LUNCH @ 11:30 AM | SALE @ 1 PM

Tyler Larsen 406.351.1412 | *Lafe Warren* 406.351.9828

Auctioneer

Roger Jacobs406-698-7686

Livestock Publications

Barry Ellis, Special Assignment 406-855-4183
Jeff Thomas, Prairie Star 406-581-8859
Andy Rest, Cattle Business Weekly 406-670-5678
Matt Wznick, Western Ag Reporter 406-489-2414

Terms & Conditions

The cattle sell under the standard terms and conditions as recommended by the American Angus Association. Terms of the sale are cash.

Announcements from the block take precedence over information in this catalog.

Discount

A \$75 rebate per bull will be given if the buyer picked up bulls within a week after the sale date.

Guarantee

All bulls are guaranteed against breeding injury for the first breeding season. Breeding season is defined as the 90 day period following the first turnout of the bulls. If a replacement bull is available, he will be provided, or credit toward one bull will be given in the following year's sale at 50% of the original sale price. Buyer must have a veterinarian examination of the injured bull and contact Larsen Ranch before October 20, 2025.

Sight Unseen Purchase Guarantee

A satisfaction guaranteed sight unseen purchase plan is available for buyers unable to attend. Contact Larsen Ranch or any other representatives listed to discuss your individual needs.

Delivery

Free delivery up to 350 miles, at cost after.

Frontier Live

Frontier Live is teaming up with Larsen Ranch Angus to help produce their 2025 production sale. Videos of all the bulls have been edited and an online catalog with videos is available at www.frontierlivesale.com. On sale day, buyers can view the bulls at the ranch and then come inside to the comfortable sale ring where each lot will be presented for live auction via large video screens.

Volume Discount

5 or more - 5%

10 or more - 10%

Retained Interest

Larsen Ranch is retaining 1/3 revenue sharing interest on all bulls in the sale, allowing Larsen Ranch the right of use of semen in our herds. Collection would be at the owner's convenience and our expense. This will apply to a very small percentage of sale bulls.

American Angus Association \$Value Indexes

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

ANGUS
THE BUSINESS BREED

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase pre-weaning growth through additional weaning weight and maternal milk with expenses adjustment for mature size and maternal milk.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

FRONTIER LIVE SALE

This Sale will be broadcast live on www.frontierlivesale.com. To view a sale,

1. Create an account, if you have already done so skip to next step. To create a new account, click on the word **Registration** in the upper right hand corner. You must fill out the information requested. Then click **Create Account**. An email will be sent to your email account you provided. Please click the link in the email to activate your new account.

2. Once you click the link, your account will now be activated

3. At this point, you may click **Continue To Browse Our Site**. This will allow you to view all upcoming auctions.

4. Once you see the auction you are interested in, click **Get Approved To Bid** for absentee and live bidding.

5. Please enter your information in the form. Depending on the auctioneer, different information may be requested. Click **I agree to sale terms and conditions**. Congratulations! You are now approved for the auction. Now that you're approved you can participate in the auction and bid on its items.

6. Login on sale day with the credentials provided at registration.

Call 866-313-0123 for tech help.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef*® brand.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

Only 1 in 4 non-parent Angus bulls qualify.

For more information on Targeting the Brand™ visit CABcattle.com.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs
